EDUCATE YOUR MICROSOFT PPM TEAM

Drive Results, Adoption, and Satisfaction with Milestone's YJTJ™ Education

- ◆ Challenged by Microsoft Project?
- ◆ Seeking greater consistency in your schedules and fewer support calls?
- ◆ Want to spend more time managing projects and less time managing schedules?
- ◆ Looking to see increased return on your Microsoft Project investment?

YJTJ™ (Your Job Tool's Job)

Milestone's YJTJ courseware has been recognized as second to none at helping project managers thrive with Microsoft Project. Our ability to clarify the responsibilities of the PM in a PPM or individual project setting has dramatically improved results for both our implementation customers, as well as those of our partners. We provide delivery of our education in innovative formats from traditional classroom style to single day online learning that make it easy for organizations to realize the benefits of having project managers truly engaged in PPM or simply more effective at project management.

Education

Principle-Centric

- ◆ Our education is based on widely established portfolio and project management principles.
- ◆ Our education instills a uniform understanding and approach to schedule management irrespective of Microsoft Project and project management skills.
- ◆ Our client's staff will achieve a greater understanding of their goals, thereby enhancing their ability to change behavior.

Project Manager

- ◆ Hands-on, interactive education that focuses on proven project management and Microsoft Project best practices.

Resource Manager

- ◆ Resource management seminars and hands-on, interactive education that focuses on proven resource management and Microsoft PPM best practices.
